CO-EDITORS

TANNA GORDON

LEONIDAS PATTERSON

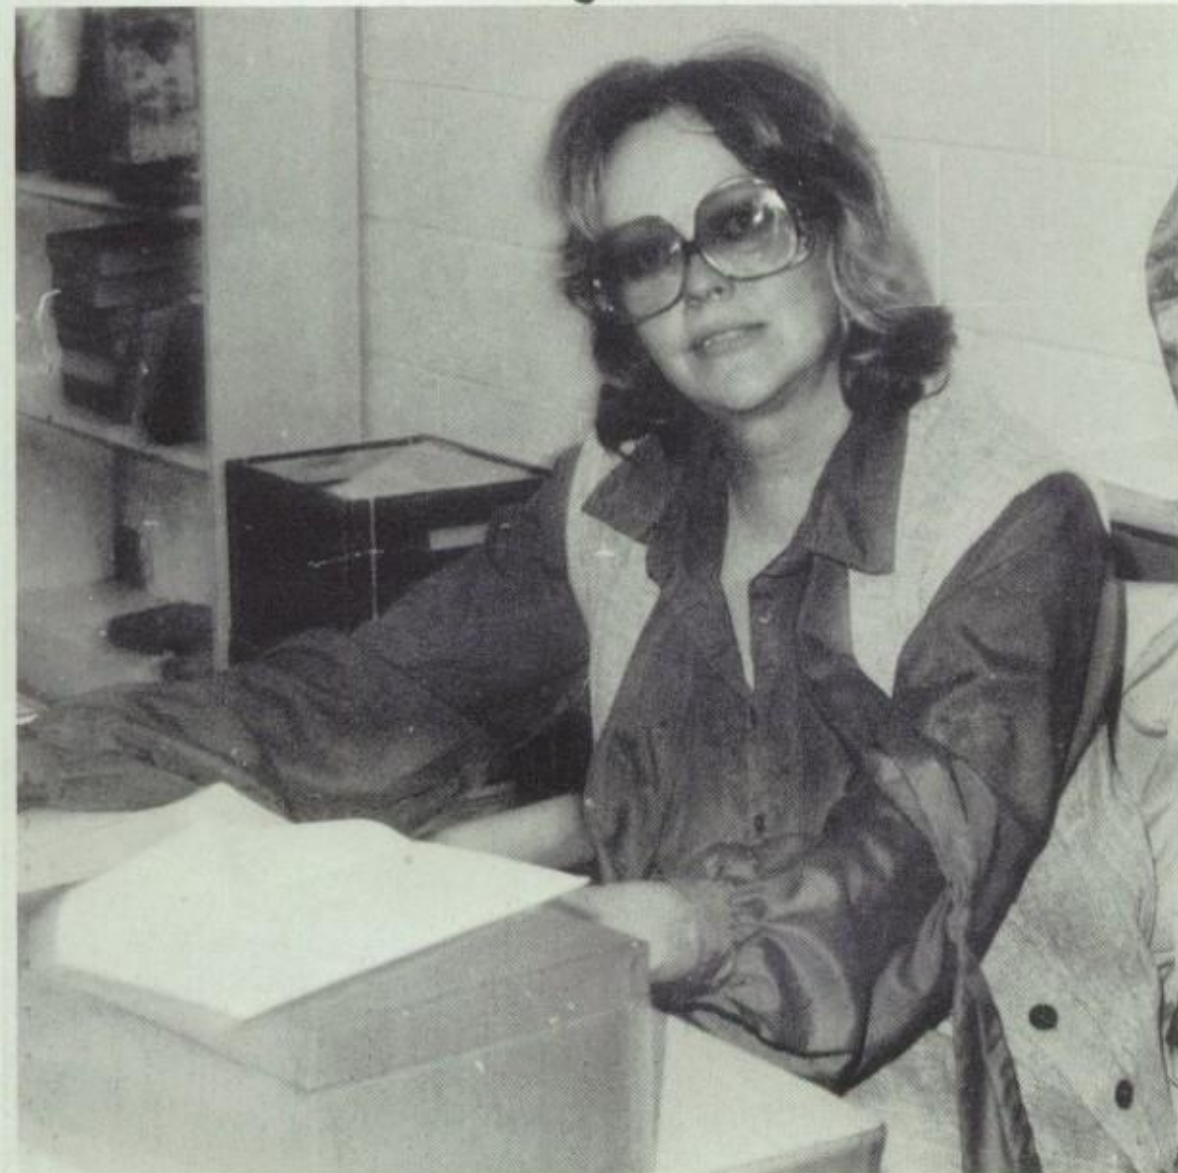

THE 1980-1981 year at Terrell High has been one of high academic achievement, and great athletic accomplishments. We at Terrell High School have experienced being a part of these happenings.

OUR INSTRUCTORS are the best in the country, and provide the students with help to succeed in academic skills, athletic participation, and the tools to become the responsible young men and women we strive to be.

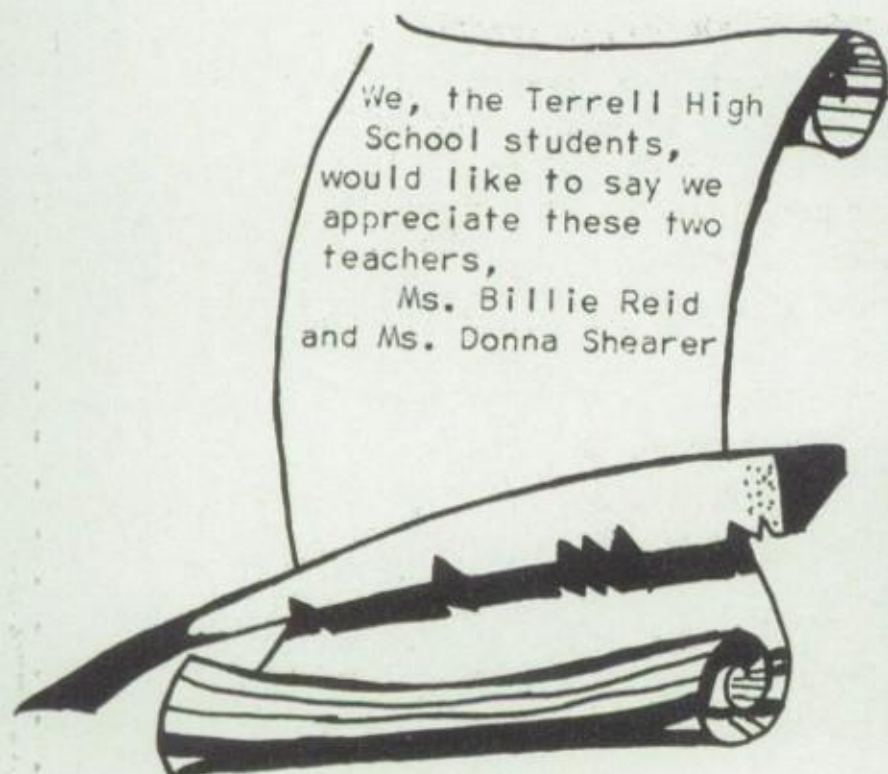

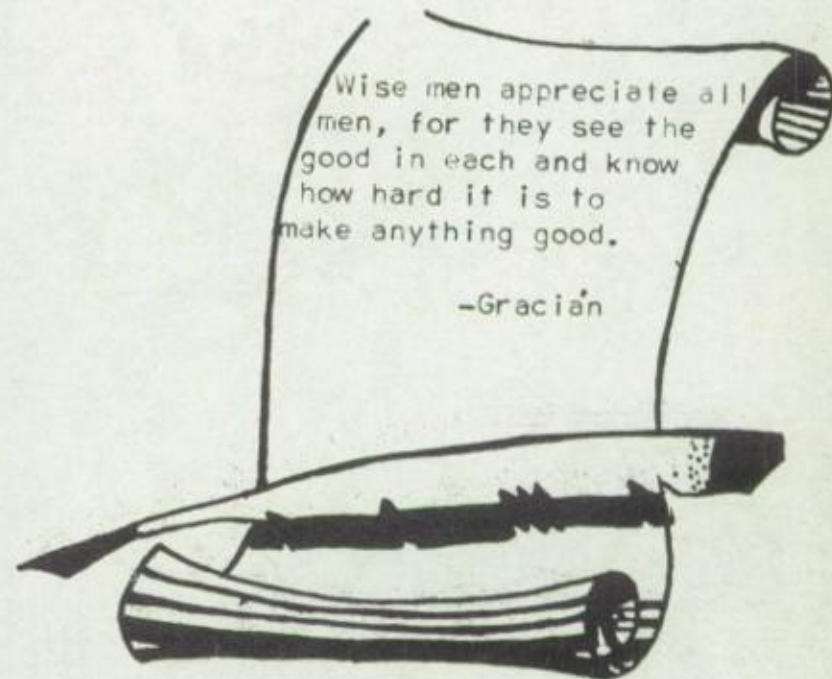

OUR STUDENTBODY is the very finest, and with the faculty form a great combination. One giving valuable information and help; the other accepting.

WE, THE CO-EDITORS hope that you'll enjoy THE TIGER this year and the many years to come, and because it features many young men and women who will become a vital part of this great country.

The 70's are gone, the 80's wait,
We're the class that Dominates.
We're the class that Tops the Rest,
Seniors 81 are Best!!!

June 2, 1981

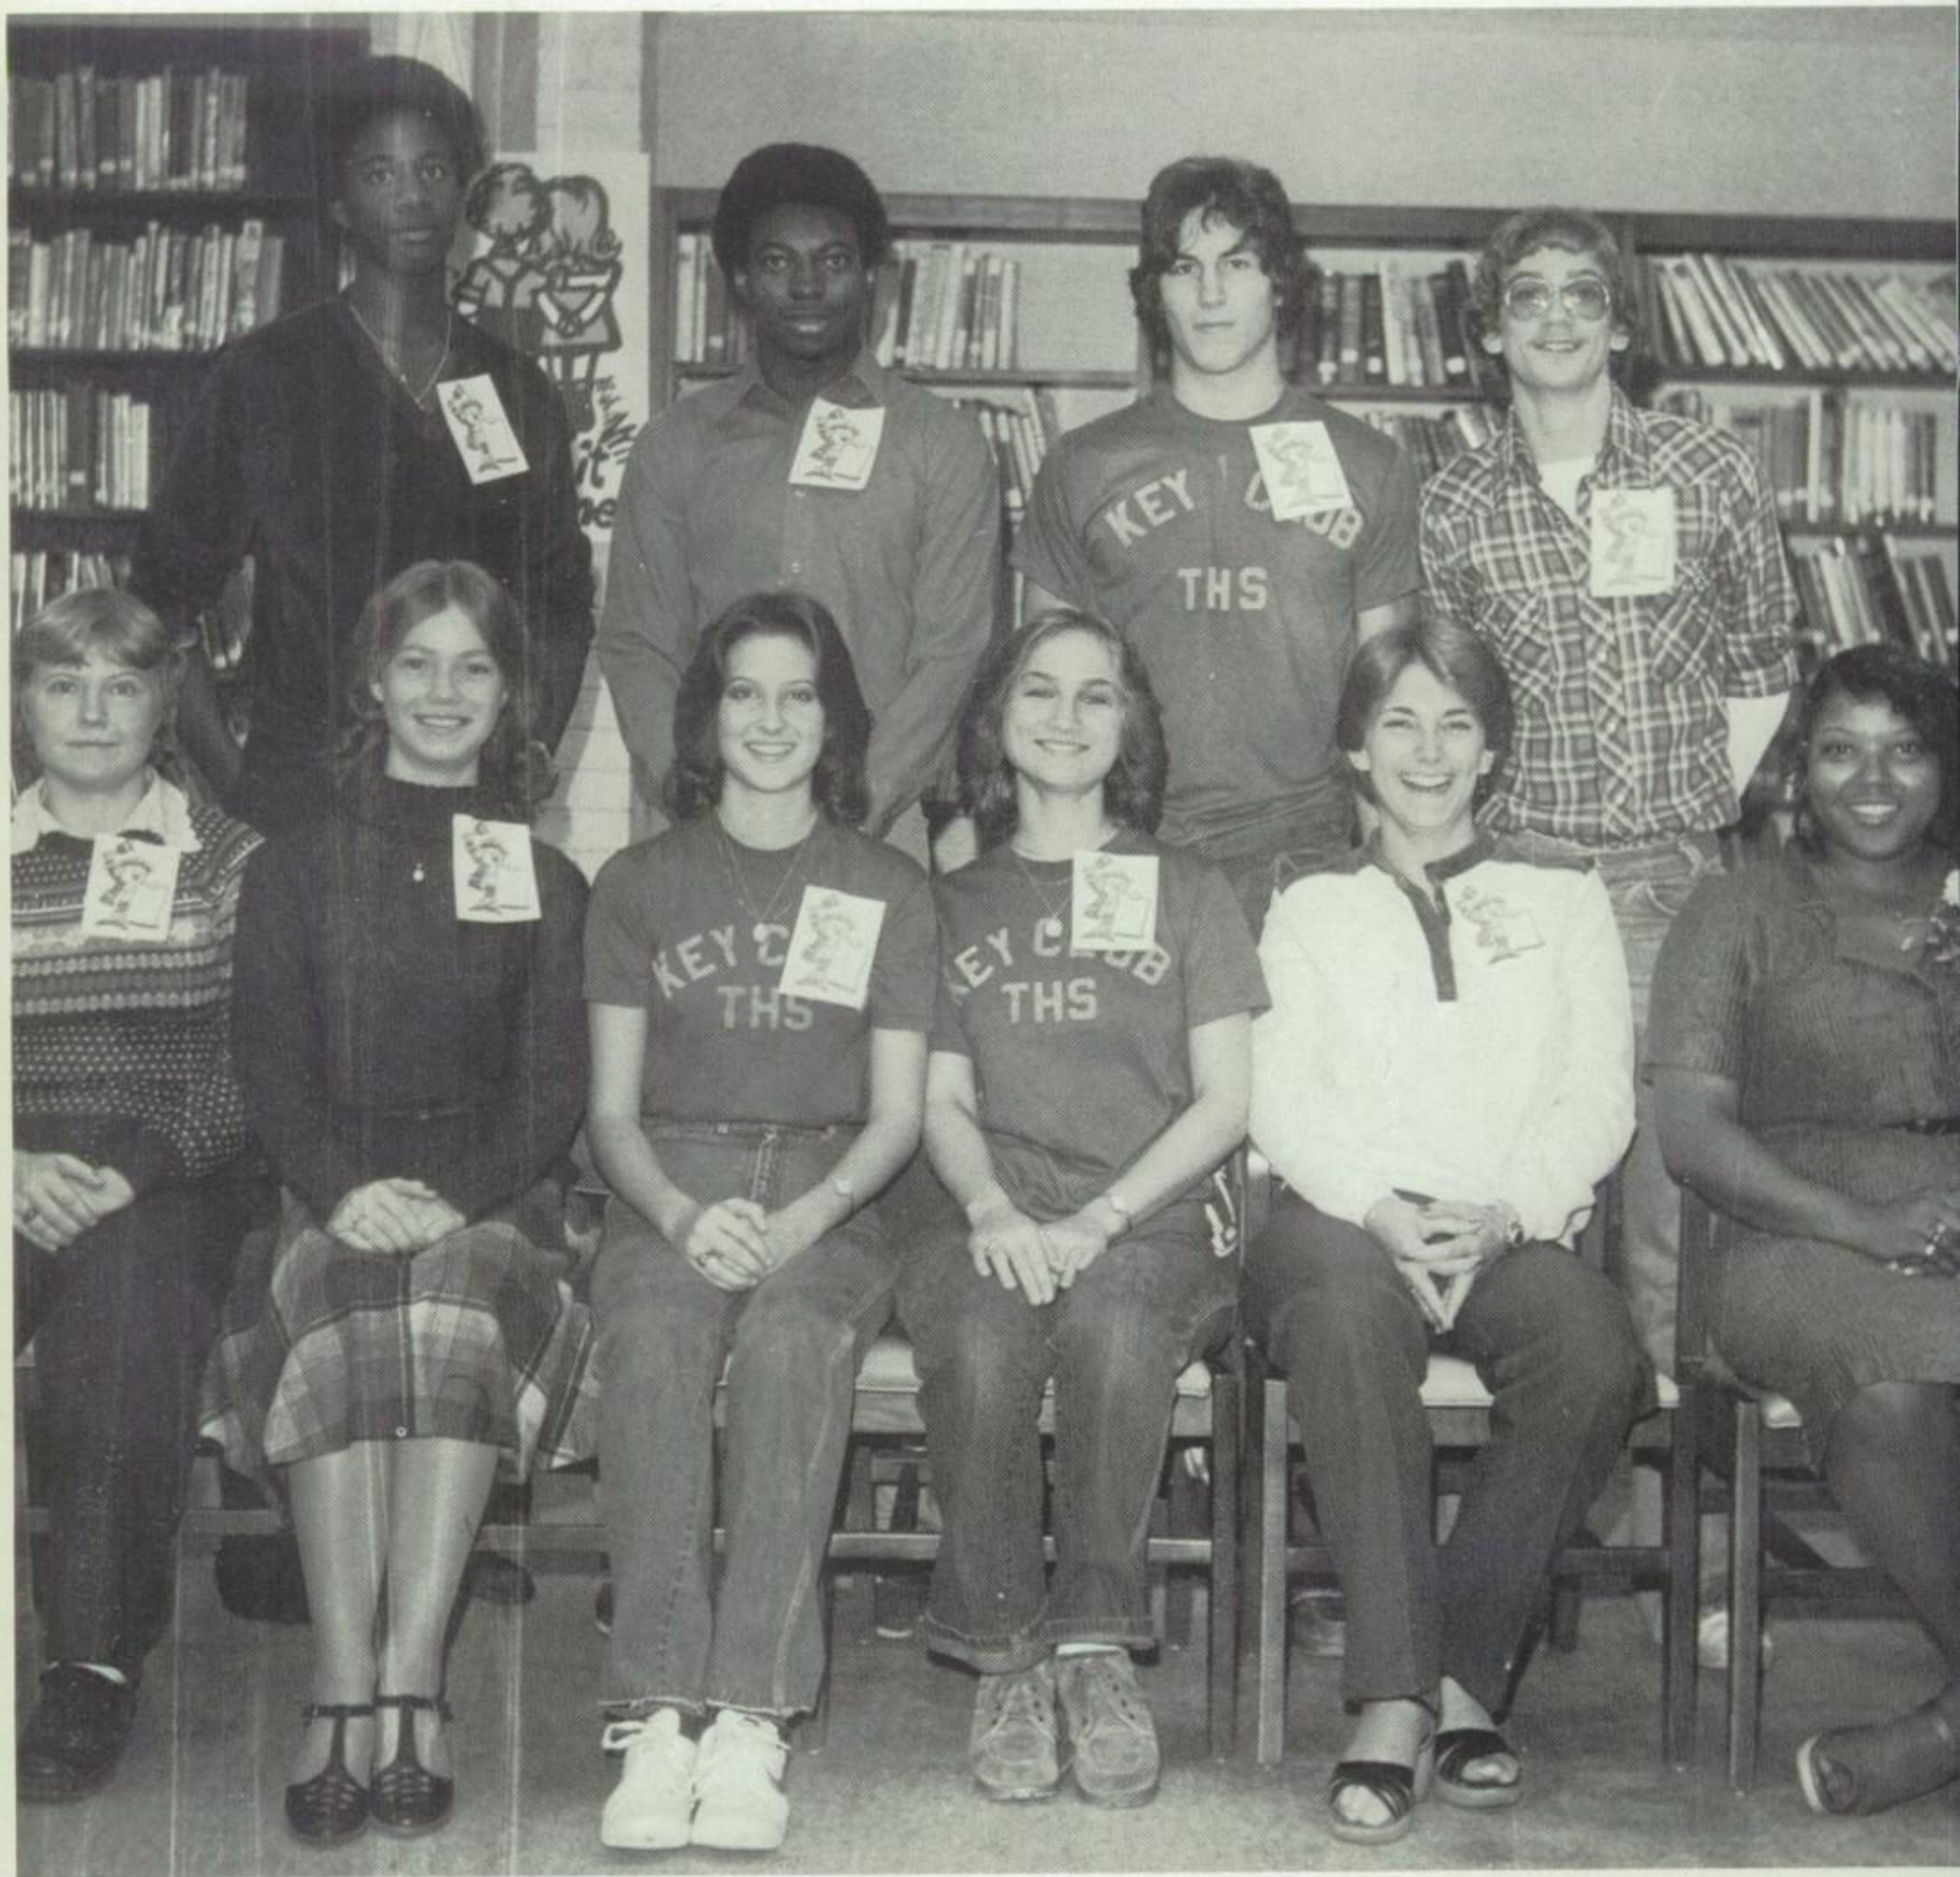

A Graduate's Prayer

Father, I have knowledge,
 so will You show me now
How to use it wisely
 and find a way somehow
To make the world I live in
 a little better place,
And make life with its problems
 a bit easier to face...
Grant me faith and courage
 and put purpose in my days,
And show me how to serve *Thee*
 in the most effective ways
So all my education,
 my knowledge and my skill,
May find their true fulfillment
 as I learn to do *Thy Will*...
And may I ever be aware
 in everything I do
That knowledge comes from learning –
 and wisdom comes from *You*.

You can help.

You've heard a lot about the need to conserve electricity and all forms of energy. Not only does conservation help save our nation's precious energy resources, it helps you and your family save money since the cost of energy is a big chunk out of most families' budgets.

savings

You can help your family by doing your part... make sure you close doors and windows

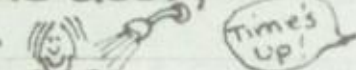

refrigerator

when the heating or air conditioning unit is on; don't "graze" when you raid the refrigerator - know what you want before you open the door;

hot water takes energy -

try a shorter shower;

Times Up!

Turn off the T.V.!

and make sure the television or stereo

is off when you're through

with it. Work with your

family to save energy now...

you'll help make sure there will be

enough for everyone when you

start a family of your own.
